

## Quality Policy

Our policy is to become the leading supplier of logistics and flexi tank / dry bulk liner operations and services.

We provide our clients with increasing profits whilst helping the environment by providing a continuous unique logistics and trade financing solution that automates bulk cargo trading operations by integrating the functions and requirements of financial institutions, the transportation industry and trade organizations to enable importers, exporters and customers to apply for and receive the best supply chain architecture and management.

At the same time we aim to maintain the highest standards of customer satisfaction and assurances of the highest quality service. In doing so, we will comply with all applicable requirements, including those of our customers, applicable legislation and those of ISO 9001 whilst achieving a high quality and cost effective service.

We have developed a management system to control our processes and to direct our employees in order to achieve this policy. We have also established quality objectives to support this policy which will be monitored and measured in order to continually improve our service.

With this policy statement we confirm that we are fully committed to quality and to continually improve the effectiveness of our management system. We will spare no effort to support this policy and our objectives with active and continuous improvement by top management.

This policy is made available to all employees and BeFlexi Ltd requires all employees to comply with it.

The policy is reviewed as part of the management review process and where changes to the policy are made it will be re-issued and implemented.
